

Snowdrop Group

Who are we?

The Snowdrop Group has been set up within maternity services in BHSCT. The group brings together parents who have experienced a loss (through miscarriage, stillbirth or neonatal death) with staff to work towards improving maternity services and bereavement care for families. This is not a support group, however, some people find that making a positive contribution to service change is helpful to them.

What do we do?

We meet to give feedback to staff and work with them to find ways to improve the service.

We are always interested to hear the views of bereaved parents – both the good experiences, and the things that need to be improved on. If you would like to attend the next meeting you can contact us by telephone, email or post.

How to contact us

Barbara Gergett - Childbirth and Loss Midwife

Royal Jubilee Maternity Hospital, Grosvenor Road, Belfast BT12 6BA
